# Introducing Crossover from Senator.

**Over the years Senator has designed and developed numerous desking collections which have met the demands of the modern office environment. This brochure has been created to give you an insight into Crossover.**

Senator's Crossover desking system meets the needs of the evolving working environment. Designed to incorporate worksurfaces, storage, desk organisation and cable management – it is an instant office solution.

senator

# Crossover

Crossover is a contemporary desking system. Its has a simple yet beautiful set of intelligent core components, that give maximum performance for minimal product life cost.

At the heart of Crossover is a pair of horizontal beams which provide a robust structure and a continuous fixing method for all furniture elements. Legs, screens, worksurfaces and accessories can be attached at any point along the beams regardless of the desk module. Therefore reducing the need for a multitude of components.

# Crossover

The system of attaching to the beam anywhere provides the flexibility to position key furniture elements to suit specific functional and ergonomic requirements rather than in predetermined, regular intervals.

Additionally, by attaching all structural elements to the beams the workstation structure can be built with worksurfaces removed; providing easy access when laying power and data cables

The flexibility designed into the structure allows Crossover to provide a comprehensive range of different applications. It can be specified as a simple rectangular desk or configured into multi-linked workstation clusters, from 90° to 120° pieces. Bench style desking with rectilinear, wave and double wave tops can also be constructed.

Crossover can accommodate a multitude of different layouts from a common set of components and without compromise.

# Crossover

The desktop storage system has been designed specifically to work with the Crossover range. When used with back-to-back configurations the storage box allows separate access and individual space to users at either side of the desk.

Crossover storage boxes can be specified at the end of worksurfaces or down the central spine. They can act purely as workstation accessible storage or to incorporate power and monitor arms.

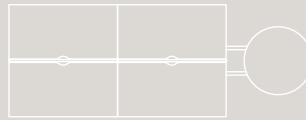

# Crossover

A selection of desking configurations offered within the Crossover range, highlighting the extensive flexibility of this product.

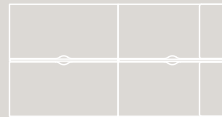

## Page 003

Four man bench with rectangular workstations in Autumn MFC with Graphite metalwork, featuring a desk-end round meeting table. Situated to the left of the desking is a Pause high table in Formica Wicker Bamboo V8458 with accompanying high bench and low mobile stools, whilst to the right sits a 3 drawer side filer storage unit with Autumn MFC worktop. Task seating is from the Sprint collection

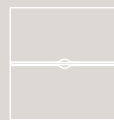

## Page 004

Four man bench with rectangular workstations in White MFC with Silver metalwork. Two Silver, single sided storage boxes are located to the right end of the desk. All seating is from the Sprint collection.

## Page 005

Two man back-to-back workstation in White MFC and White metalwork, featuring fabric screen in Camira, New Aquarius pitch JA002. White metal, 3 drawer pedestals are located under the desk with a 3 drawer side filer storage unit in the background. Seating is from the Sprint collection.

## Page 006

Single Crossover workstation in Autumn MFC and Grey metalwork with a round desk-end meeting table. Glazed screen tool rail featured in Opaque White. Single task chair featured is Enigma alongside Sprint visitor chairs

(Bench system see page 3)

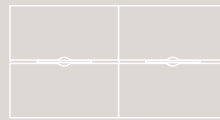

## Page 007

Cluster of 6 120° desks in White MFC and 4 Beech MFC rectangular desk-end meeting tables. Metalwork in Silver with complementing fabric tool rail in Camira, New Aquarius Jezebel JA027 with accessories from the Play range. Featured seating from the Dash collection.

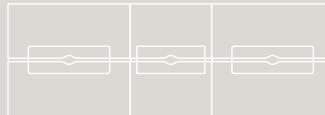

## Page 008–009

Four man bench system in White MFC with White metalwork. Fabric screens in Camira, New Aquarius Pitch JA002. Task seating featured from the Sprint range. Situated in the background is a 3 drawer side filer storage unit in White metal with pieces from the Pause soft seating collection to the left.

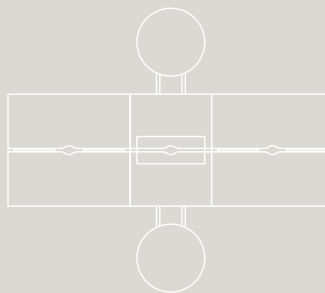

## Page 010

Four man bench system in Beech MFC with Silver metalwork. Two double sided division boxes in Silver sit on the desktop with a raised sharing table top in the centre (raised table not in the Price list). All seating from the Sprint range.

## Page 011

Eight man bench system in Beech MFC with Silver metalwork. Two round meeting tables acting as dividers in between the four man desks with 'Lite' fabric screens in Camira, New Aquarius, Tombola JA442. Task seating from the Sprint range with two 4-leg Trillipse meeting chairs.

## Page 012

Four man bench system in Autumn MFC with Grey metalwork, featuring desk-end meeting tables, fabric screens in Camira, New Aquarius Pitch JA002 and under desk 3 drawer pedestals with Autumn MFC facing. Storage situated to the rear of the desking with Autumn MFC tops and Silver side tambours. Evolve task seating is featured with Zenith meeting chairs and Stirling soft seating.
