

PECU

PERSONAL EQUIPMENT CHARGING UNIT

Developed in collaboration with a major UK Police Authority, this family of products is designed to meet the requirements of today's mobile technology. Personal electronic equipment can now be securely stored whilst being charged.

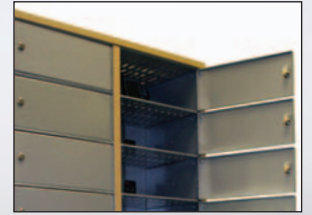

PAT TESTED

PLUG & PLAY USE

INDIVIDUAL LOCKING

OPTIONAL PERSONALISATION

MULTIPLE STANDARD UK PLUG SOCKETS

RADIAL PIN LOCKS

The **PECU (Personal Equipment Charging Unit)** is supplied in single, twin or triple width modules to maximise the use of available space. Each steel locker is fitted with a secure radial pin lock system offering 10,000 differs and master-key options; supplied with keys as standard.

Locker doors can be numbered or supplied with name plates for ease of identification.

The **PECU** is produced in perforated steel and fitted with vents to aid air circulation.

It has removal rear access panels for maintenance by suitably qualified personnel. Each locker module is housed in a wooden carcass that can be colour co-ordinated with Gresham Office Furniture ranges. They can be specified with either a storage base unit or heavy-duty frame that positions the PECU within the 'reach range' of users complying to BS 8300: 2001.
