MAKING SPACE WORK

WELCOME.

As one of the UK's leading designers and manufacturers of workplace furniture, Gresham's portfolio encompasses office desking, seating, storage and screens plus conference, leisure and breakout collections, offering an holistic solution to your furniture requirements.

Quay are proud to showcase our extensive collection of products combining design, quality and functionality from a **'True UK Manufacturer'.** The latest additions and unique styles complement our established ranges and offer solutions for all environments. Due to our manufacturing capability we can also offer bespoke products to suit your exact requirements, therefore if you do not see the product or style you require, please contact our Sales Office.

OUR STORY

QUAY
OFFICE GROUP

ABOUT QUAY

Founded in 1989, Quay have grown into an established and renowned supplier of single source quality workplace furniture and solutions. Our success is down to our staff's dedication and sheer hard work providing our existing and new customers a first-class service and attention to detail.

Our flexible and professional approach to business, perfected over 30 years, has enabled us to engage with our clients and respond to their needs, and in doing so, we've created many long-term relationships.

Our business is built on embracing new clients whatever their size, growing with them and offering inspirational design and technology to transform their workspaces.

WE DON'T JUST SELL OFFICE FURNITURE - WE DESIGN AND BUILD TOO!

OWN LOGISTICS

COMPLETE FURNITURE SOLUTIONS

PROJECT MANAGEMENT

FINANCIAL STABILITY

AFFORDABLE DESIGN AND SPACE PLANNING

ACCREDITATIONS

Our success is built on the basis that our most valuable asset is our staff.

We invest heavily in their training and development to ensure they are the best in the business, whether they are part of our sales, design or installation teams. Our notable list of clients both new and old is testament to all their hard work.

We are proud of our staffs dedication and hard work which has undoubtedly enabled us to achieve and retain the following accreditations:

MAKING SPACE WORK

GRESHAM DESIGN • QUAY SERVICE

Gresham works with some of the finest designers to create individual pieces that reflect your personality and enhance your workspace. The company's in-house team boasts experienced designers with backgrounds in Product Design, Industrial and Furniture Design, Design Engineering, Interior Design and Graphics, to name but a few.

Based at their Bolton studio, their team come from a myriad of disciplines, bringing their expertise to create inspiring designs. Whether for mainstream products, special variations or totally bespoke solutions, we provide a complete service from concept through manufacturing to presentation and hand-over. Working in a high-pressure commercial environment, our team needs to balance creativity and flair with quality.

We continually explore innovations in technology, materials and processing, as well as keeping abreast of style, popular colour trends and the ever-adapting workplace. It's all about getting it right.

CAD FILES

WE CREATE OUR CAD FILES FOR USE WITHIN AUTOCAD, REVIT, PCON PLANNER, SKETCH UP AND 3DS MAX.

We support our clients by implementing the BIM approach to all of our projects. BIM (Building Information Modelling) is a collaborative way of working allowing different sectors to work on one central model. This process means that Architects, Specifiers and Planners can work smarter, faster and cheaper by sharing standardised design information.

PCon Planner and SketchUp are 3D CAD software packages that are free to download and can be used for planning. They are fast becoming the industry standard which is why we create our portfolio in this format. We upload all of our models to 'The 3D Warehouse' - the world's biggest resource for free 3D CAD models.

INSTALLATION

All installations are undertaken by highly trained & experienced staff at times to suit you. All packaging is removed from site and returned to the factory for recycling.

LOCAL SERVICE

We provide you with peace of mind that you can access products locally from a renowned manufacturer.

PROJECT MANAGEMENT

We provide total Project Management from initial enquiry through to installation. A single point of contact ensures efficiency and avoids tying up your own valued resources.

ERGONOMIC TRAINING

We provide on site ergonomic training to make sure users are familiar with our products ensuring correct seating and posture.

ENVIRONMENT

FSC® FOREST STEWARDSHIP COUNCIL®.

Its purpose is to promote responsible management of the world's forests through developing standards, a certification system and trademark recognition. The process of tracking a product back to forest is called "Chain-of-Custody (COC) Certification. Through the COC, companies can demonstrate their commitment to the environment and responsible material sourcing.

Over 99% of the Melamine Faced Chipboard used in the manufacture of office and leisure furniture has been sourced from FSC® certified suppliers. The 1% remaining material, although not FSC® is sourced from non-controversial sources. No trees are cut down specifically to produce MFC.

REDUCING CARBON EMISSIONS.

We are committed to reducing our carbon footprint by instigating strategies which will reduce the use of fossil fuels and the amount of greenhouse gases produced by our processes. We continually invest in state of the art equipment to make manufacturing more efficient. We recycle our waste, reducing landfill and continually update our fleet of vehicles to ensure the latest engine technology is employed.

INTRODUCTION
TABLES

For optional cable management please refer to relevant product page or Cable Management in Desking section.

For optional desk service modules please see Electrical Accessories in Desking section.

For metal finishes please see Technical Information section.
Pastel Paint Surcharge

For board finishes please see Technical Information section.
Adlington Oak Surcharge
Light Concrete Surcharge

• A selective range of tables are available with 25mm and 36mm top panels (see opposite). Suffix code with relevant letter for required finish. Please refer to the technical information section for available colours. Only top panels are available in different finishes, all other components remain unaffected.

Group Z	Squared Edged 25mm MFC	
Group B	Squared Edged 36mm MFC	
Group C	Squared Edged 25mm Laminate Face	
Group D	25mm MDF Laminate Face with Chamfered Edge	
Group F	Square Edged 25mm MDF Dry Wipe Laminate Face	
Group G	Squared Edged 36mm Laminate Face	

Edging Options

Squared Edge
Group Z, B, C, F & G

Chamfered Edge
Group D

Halo, Fenix and Filafo laminates are available for a surcharge.

• Selected tables can be specified with 80 diameter circular cable ports or cut outs that can be used to access either cable trays or spines beneath the worksurface. They are positioned to avoid the underframes and can be fitted with a selection of service modules - specified separately.

Please refer to the relevant cable management section and Electrical Accessories section for further information.

Surcharge for Cable Ports: retail
No surcharge for standard cut outs

How to order Tables with/for power modules:
1) Choose required power module.
2) Make a note of the code & type of opening required (P, C1, C2 etc).
3) Choose table range.
4) Refer to cable management section to see available cut out type and positions for the range.

5) Make a note of the required table code with relevant cut out details (GTR2010ZC2 for example).
6) Place order with relevant table and module code.

Note: cut out positions not shown may not be available due to frame restraints.

C1, C2, C3 (cut out)

P (cable port)
Surcharge

• Unless otherwise stated tables are 727mm high when fitted with 25mm MFC top panels.

← → denotes grain direction

• LTF, LTC, LTA and LTD tables are available in a range of heights (see opposite).

BETIBO
TABLES
Betibo Blu

A member of the Betibo coffee table family, the Blu Table sits best at a room's centre. Whether in a lounge, casual meeting space or reception area, the low-level design sits at the ideal height for practicality. From drinks to documents, the two tops in this range (800x800x330 and 1200x800x330) offer subtle support. Choose from leg options including Oak Stained, Black Stained and Dark Walnut. And tabletops with either a radius or square corner, and in our standard MFC or a laminate finish.

Available Frame Colours

Black   Dark Walnut   Oak

BETIBO
TABLES

Betibo Baku

The Baku Table – part of the Betibo family of coffee tables - was designed with contemporary spaces in mind. Minimal in aesthetic, the highly versatile pieces suit any interior setting, bringing people together, whether in a work, social or family context. Use as a standalone solution or combine multiple sizes and heights to create a functional feature. Leg options include Oak Stained, Black Stained and Dark Walnut. And tabletops come with either a radius or square corner, and with our standard MFC or laminate finish.

PRODUCT
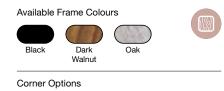

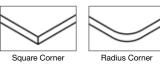

Betibo Barrier

Further bolstering the Betibo family of coffee table solutions, the Betibo Barrier Table in dining and poseur height options allows you total flexibility. In the workplace, the regular style makes the perfect meeting table. And in a hospitality venue, the taller format pairs with stool seating to offer a casual yet comfortable arrangement. The dining tables range from 800x800x730 to 1800x800x730, while the poseur tables start at 800x800x1040 and scale up to 1800x800x1040. All designs in the Betibo family include Oak Stained, Black Stained and Dark Walnut leg options. Tabletops come either with a radius or square corner, and our standard MFC or a laminate finish.

GD1 POSEUR
TABLES

10 Year
Guarantee

This striking family of tables brings both sophistication and functionality to breakout spaces, agile working areas or places where you simply want to connect for those 'away-from-desk' activities. Available in two height variations and a selection of footprints and finishes, GD1 is at home in any working landscape. The elegantly angled legs are produced in solid wood with an option for cleverly concealed cable control. Worksurfaces have softened corners and can feature integrated modules that bring all necessary services to each user.

Leg Options

Natural   Black

Additional Information
Available in a variety of finishes including non-standard MFC and laminate. For alternative finishes or service modular options please contact our sales team.

Key
'Powered'   Refers to tables with integral cable management within two legs, cable covers to the underside and fitted
                       with 2No Back-Flip through desk modules, each with 2 UK power and single USB-A fast charge sockets.
'Cable Managed'   Refers to tables with integral cable management within two legs.
'Non-powered'   Refers to tables without cable management or service modules.

DECK INTRODUCTION
TABLES

5 Year
Guarantee

Introducing Deck, a timeless bench table and seating collection that boasts effortless sophistication and stylish simplicity. With its crisp, clean lines and distinctive finishes, the Deck collections' versatility can perfectly fulfil modern workplace requirements.

The Deck collection is an ideal choice for office and leisure environments - whether used for hot-desking, corporate meetings or communal dining. Its flexibility facilitates individual work and collaborative discussions, while making it even easier for employees and executives alike to move seamlessly from one activity or project to another. The Deck collection saves time and space when both are limited - it is the obvious choice for any working environment.

This refined collection can be extensively customised to fulfil the needs of your space and it is available in a range of specifications. These include options for sitting or standing height models, various end frame materials and customisable unit dimensions. The Deck collection makes use of your entire landscape and can be offered in an almost limitless combination of surface finishes. In fact, each bench or table unit can be created to your preferences or made to satisfy unique corporate requirements.

Whether you'd like a classic wood effect, vibrant block colours or funky patterns this family of furniture will help you to make a statement and enhance every inch of your space.

MFC Finishes -
- Available in single colour MFC Finishes - Both styles of panel ended products are produced flat-packed and assembled on site.
- Steel Framed products are supplied fully assembled.
- MFC Deck products have 38mm Tops & 25mm End Panels, where appropriate.
- Available with Contrasting Edge

Laminate Finishes -
- Panel Ended and Inset Panel products are produced flat-packed and assembled on site.
- Mitred Panel Ended and Steel Framed products are supplied fully assembled and we would recommend specialised handling to site. For delivery and installation details, contact our Sales Team. Laminate Deck products have 38mm Tops & End Panels, where appropriate.
- Available with Contrasting Edging.

Alternative laminates are available (Halo, Fenix, Filafo) Please refer to the Technical Data Section. Surcharges will be applicable.

All Deck Products
- Use stools from our Seating section with Poseur Height Tables.
- Small Bench Seats can nest under wider Dining Tables.
- All Deck products may require a team lift due to their heavy nature.
- Inset Panel Deck have their ends inset by 300mm.

Single Laminate
Single colour with matching or contrasting edge - SUFFIX 'S'

DECK MITRED
TABLES

Deck Mitred is the premium product within this collection. It incorporates traditional joinery skills and hand-applied finishes. Choose from an array of laminate finishes that can be uniform or specified as two-toned, single colours or patterned relief. These variations enable the model to complement its surroundings, stirring emotions and adding a sense of theatre.

DECK STEEL
TABLES

The Deck Steel model combines the features of the panel ended and inset models, by allowing users to sit all along and around the work surface, without the structure impinging on their leg space. Its lightweight yet robust frame is fully welded and offers an additional opportunity for users to introduce metallic colours into the working landscape, while remaining cohesive with adjacent furniture from different ranges. Deck Steel frames boast minimalistic style and clear air circulation within open-plan areas. Each model is available with sitting and standing height work surfaces, with matching bench seating.

GC4
TABLES

GC4 is a select family of tilt-top tables that feature elegant styling on complementary mobile and static frame designs that look great in any working landscape.

The mobile units are designed with the frames positioned to the ends of the table to allow users to sit comfortably to both sides. The static versions have inset frames, allowing users to sit to all sides.

GLASS Reception Table

RELO
TABLES

A continuation of calm: Gresham introduces its new Relo table range. Crafted to seamlessly complement Gresham's Relo collection of rounded chairs, the new Relo table range supports designers in creating comforting, calming schemes. Mirroring the unmistakable curves of Relo, the tables offer a visual link back to their aesthetic inspiration; that of sea-smoothed pebbles and stones emerging from turbulent waters. Available in 9 variations, versatility is offered as standard. From larger, two-tiered designs to smaller options, there's a combination to suit all contemporary spaces. The circular tabletop is created from MFC (Melamine Faced Chipboard), and the statement 20mm geometric steel frames can be chosen in Black, White, Grey or Silver.

INTRODUCTION
SCREENS & PODS

KULTURE HABITAT
SCREENS & PODS

Thoroughly fit for the contemporary workplace, our Kulture Habitat Pods respond directly to the needs of both employees and employers. Providing an adaptable space that can facilitate quiet 'heads down' tasks, small-scale collaboration, or group meetings, this is a beautifully efficient solution that can be made to fit all. Personalise your Pod by choosing from a range of bespoke options, from single or half glazed and upholstered walls, to a canopy fitted with stylish, sound absorbent PET panels, and a booth with integrated table - there's a combination to suit every scheme.

Please Note: The Canopy and Booth are not available as standalone products. They must be used in conjunction with Kulture Habitat Glazed Pods.

Product Features

Available Frame Colours

Black   Silver   White

Please Note: Prices do not include installation which is mandatory by Gresham qualified installers. Installation costs will be an additional charge and will be supplied on completion of a Gresham consultation or site survey form.

Canopy Pods

Limited space doesn't have to mean compromise. Our Canopy range allows a portion of the office to be separated for collaborative work, facilitating privacy and minimising disturbance to those situated close-by.

Standard Features
- Add-On Open Canopy with stylsh PET panels, a material manufactured from recycled sources and has a great environmental story.
- PET is naturally sound absorbing so whilst refreshing an office environment you can help reduce reverberation at the same time.
- 12mm thick PET acoustically tested to ASTM C423-17 with NRC 0.80
- PET panels available in a variety of colours.

MIRAGE PODS & GE MOBILE

Mirage Pod & GE Mobile fabrics differ from our standard fabric bands. Fabrics for these products have a laminated foam backing that increases sound absorbency. A number of fabric selections for Mirage Pods and GE Mobile are available as shown.
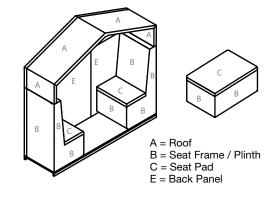

Mirage Pods & GE Mobile can have different tiered levels in alternative fabrics as illustrated below. If all the chosen fabrics are all from the same selection, then please choose the relevant fabric selection price. If the chosen fabrics are a mixture of selections, then choose the highest relevant fabric selection price.

Other fabrics may be available on request - POA. Fabrics not shown in Selections 1-4 may be subject to testing.

Mirage Colorado Semi Circular Pod

MIRAGE PODS

Workspace design has evolved over the decades to meet the changing demands of the workplace and the needs of the people who work in them.

Today, the very best contemporary workspaces are designed to provide not only functional efficiency, but be responsive to the needs of employees in terms of enhancing productivity and promoting personal wellbeing. Smart lateral thinking is required to create a multi-purpose environment that successfully achieves these goals, all within one singular space.

Able to transform a chaotic open plan spaces into an oasis of calm, where zones designed for privacy, for collaborative work, and for core activities function together seamlessly, the Mirage family of pods are the product of such thinking.

Mirage uses high quality materials to create aesthetically pleasing modular pods for employees to work in. Their carefully crafted panels and coloured trim reflects the purpose of each pod and how it will be used. Subtle, tranquil hues enhance quiet contemplation, for example, while bright, vibrant shades help to create a stimulating workspace that facilitates increased creativity and productivity.

As well as helping you to reorganise your office in order to make best use of existing floorspace, Mirage Pods also help to provide noise control for energetic working environments. Slimline panels can reduce noise levels by up to 30 decibels, meaning that private spaces remain private, while the acoustics in shared spaces promote great communication.

5 Year
Guarantee

GOBI STUDY POD

Single occupancy Gobi pods provide quiet work areas that allow users to focus on specific tasks in an environment that minimises distractions caused by external noise. These pods are cosy, ergonomically designed, and perfectly suited for their purpose. You have the option of selecting modules equipped for either permanently based equipment or mobile devices, or both, depending on your requirements. The most popular Gobi pods are of a two-tier height that works to create a protective cocoon around seated users. When standing, users are able to get a clear view of surrounding open plan areas. Gobi individual pods have a relatively small footprint, making them easy to place, and are also available in a slightly taller version, shaped like a phone booth, which has a roof plus perch points for users. These taller pods also have a useful integral light that is activated as the user approaches the booth.

5 Year Guarantee
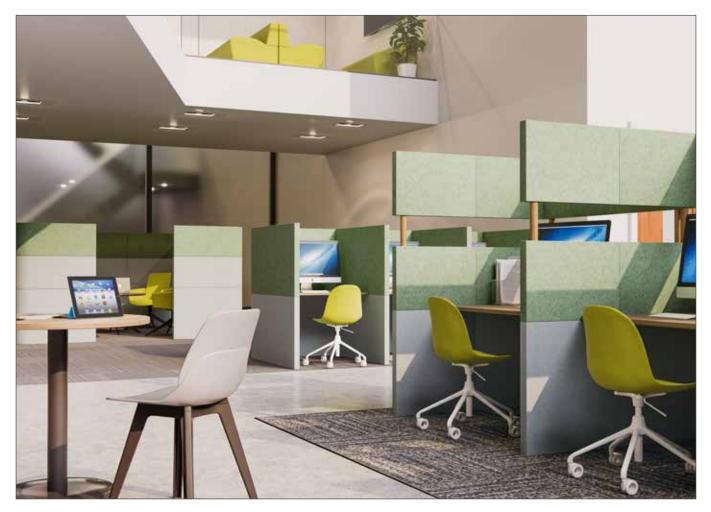

SONORAN WORK POD

Sonoran pods are designed to provide private, separate workspaces that can be clustered together in different configurations. They are ideal for housing team members or workers who benefit from being geographically close together but who still want to occupy an individual unit. The integral work surfaces are generally straight rather than curved, giving the pods a streamlined appearance. You also have the option of adding service modules and cabling as required for permanently installed equipment, as well as for mobile devices. Configuring your Sonoran pods couldn't be easier. Select single-sided pods allow users to share walls or opt for a back-to-back layout if preferred. When clustered, these pods make the most of existing floor space, allowing you to provide workspace for a greater number of people per square metre. Sonoran pods are extremely efficient and cost effective, requiring few components.

ATACAMA STUDY POD

If your workplace requires pod clusters that can function like hot desk stations, Atacama pods with shared components provide an ideal solution. Each pod has a triangular shape, which allows for the creation of a zigzag footprint when clustered with other Atacama pods, with each user being placed in the resultant zigzag corner. Work surfaces are designed to allow cabling to pass neatly through a cut-out space, and configured so that its possible to mount flat screen monitors or place desk top service modules within easy reach of occupants. With smaller work surfaces than Sonoran pods, people are less likely to clutter up the tapered space with personal effects. Atacama is the ideal pod for workers who need everything to hand when they drop in for a short period of time before moving on. This is a highly efficient solution that maximises available space for a mobile workforce.

5 Year
Guarantee
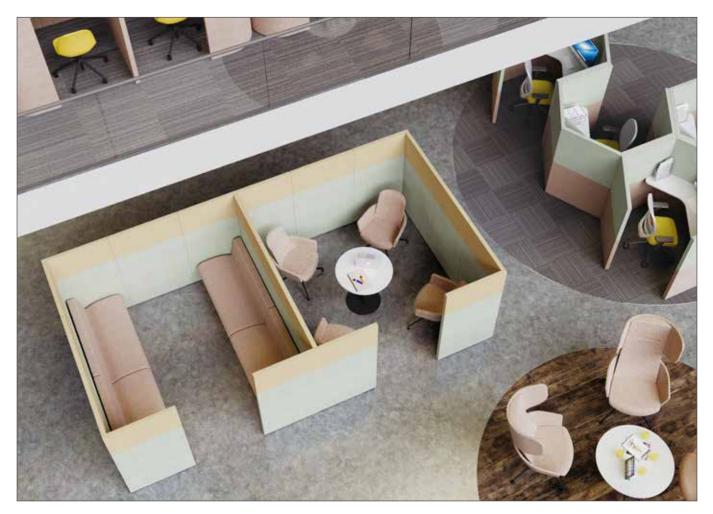

SAHARA MEETING POD

Shared workspaces need to be carefully structured to make the most of the available space, as well as enhance the type of activity taking place within them. Sahara pods are designed to create a multiple occupancy workspace that facilitates collaborative work in a quiet environment. Thanks to its acoustic dampening function, whether you want to create a quiet collaborative working space, free from distractions within an open plan area, or a room in which lively discussion can be contained, Sahara pods can do both. The flexibility of the Sahara system means you can choose from a range of larger pods with options for the number of tiers required. Single tiers can be used to delineate space, while units with additional tiers allow for increased privacy. To create shared service areas for printers and photocopiers, simply use Sahara to encircle equipment and deaden the sound.

5 Year
Guarantee
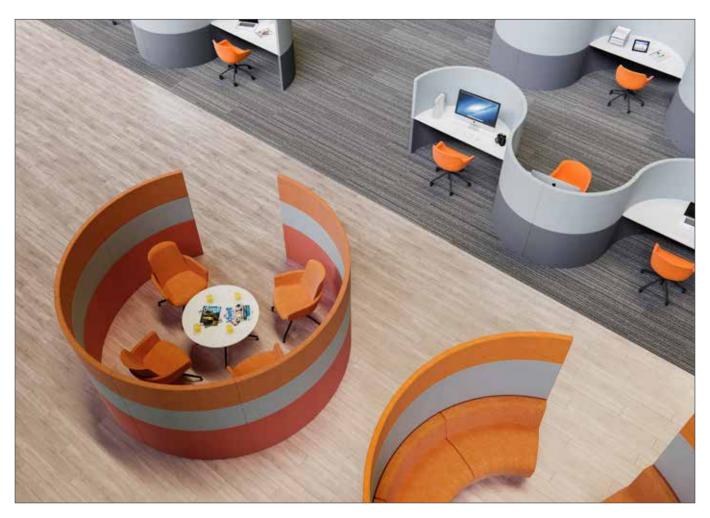

COLORADO MEETING POD

Colorado pods have gently curved walls, and are therefore ideal for creating layouts that are less angular and more fluid by design. Use of such aesthetics softens interior spaces, making them perfect environments for use as informal break-out areas, or as comfortable rooms in which to hold formal meetings and conference activities. As with Sahara pods, additional tiers can be added to Colorado units for privacy purposes, and there is also the option to choose whether you'd like the pod to have one or two entry points. This might depend, for example, on the level of access you need, as well as on what type of activities you plan for the pod. Furniture options include soft seating, suitable for informal activities, and dining or meeting and conference furniture for more formal events. You can structure Colorado pods exactly as you wish for specific activities, such as staff training sessions or briefings.

5 Year
Guarantee

KARAKUM MEETING POD

The Karakum range offers the perfect solution for housing small, private groups. The pod walls are three tiers high, above which can be found an integral roof. Pods suitable for occupancy by two, four or six occupants are available, in-line with your needs, as are units that include efficient LED lighting. Sensors for the lighting are triggered when Karakum is occupied, and will switch off when the pods are empty, ensuring optimal energy efficiency. Despite having a roof, the Karakum pod is designed to promote clean air circulation, helping users to stay focused and motivated. Selecting furniture from the options available will allow you to determine how the pod is to be used. Services can be routed from the floor upwards via the walls, as is the case with all Mirage pods, to feed adjacent or fixed work surfaces as well as suspended equipment such as monitors and projectors.

MIRAGE HAZE
SCREENS & PODS

Mirage Haze is a customisable alternative for break-out spaces. The metal framework can be specified to create boundless potentials of shapes and sizes to suit the ergonomic needs of the office environment. Walls can be specified in a trio of finishes, including upholstery, glass and laminate (available on request). Enhanced by the addition of sound-absorbing ceiling tiles, infrared lighting technology, and fans that provide air circulation, this pod's space utilisation is decisively maximised.

Additional Information:
- Prices do not include installation which is mandatory by Gresham qualified installers. Installation costs will be an additional charge and will be supplied on completion of a Gresham consultation or site survey form.
- Includes posts, cross rails, ceiling, lighting, sliding door, all fixings and all panels.
- All pods are 2200mm high.
- For any pods with dividing walls, the dividing wall will be upholstered in fabric.
- Available with Silver, White or Black trim.

Mirage Haze is flexible, for alternative footprints and heights please contact our Sales Department.

Office pod system integrated with sound-insulating properties. Tested to BS EN ISO 140-4:1998 and has a noise absorption rate of 28-30dB.
Please note a Ceiling Cover may only be required when the top of the pod is visible from above (near stairs, atriums etc) to hide electrics. Air Circulation unit cannot be covered. The Ceiling Cover is fabric wrapped to match the internal fabric of the pod ceiling.

Mirage Haze Square Half Glazed

MIRAGE HAZE PHONE BOOTH
SCREENS & PODS

The Mirage Haze phone booth has improved acoustics (rated at 36dB noise reduction) and an updated modern aesthetic. To achieve the improved acoustics, 22mm double glazed panels, 6mm glazed doors, 55mm sound absorbing upholstered panels and 50mm sound absorbing ceiling tiles have been utilised.
The design includes an integrated facilities loop housing the PIR operated LED strip lighting and air circulation system.

Additional Information:
- Prices do not include installation which is mandatory by Gresham qualified installers. Installation costs will be an additional charge and will be supplied on completion of a Gresham consultation or site survey form.
- Acoustically tested to BSEN ISO 140 and rated at 36dB noise reduction.
- 55mm sound absorbing upholstered panels.
- 22mm double glazed glass panels.
- 6mm hinged glass door with manifestations.
- 50mm sound absorbing ceiling panels upholstered in light grey.
- Integrated ceiling cover included as standard.
- Integrated facilities arch included as standard housing lighting system.
- PIR operated, high output – low voltage, diffused, dual LED strip lighting included as standard.
- Air circulation fan with 216m3/h airflow included as standard.
- Optional flush mounted modules available with power or TUF.
- 2100mm high (2380mm high with air circulation).
- Available with an OptionShelf.
- Available with Silver, White or Black Trim.

Straight Acrylic Desk Mounted Screens

**5 Year
Guarantee**

Desk Mounted Screens fit all Gresham desk ranges and are
inclusive of brackets. When ordering, suffix the screen code with
bracket type.
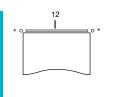

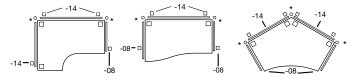

How to specify -
1:   Identify desk range
2:   Select screen position (see diagrams)
3:   Identify screen length & type
4:   Add bracket suffix to screen code

Example of use -
1   1600 Deskit Workstation rear screen   VSDF164-20
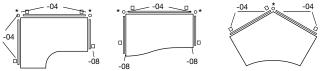

Bench2 Access Top   * Requires link post

Bench² Scallop Top & DesQ   * Requires link post
If used with Bench² over desk shelving, please substitute -04
brackets with -14

* Requires User Modification

Bench² Fixed Top   * Requires link post

Mesa   * Requires link post
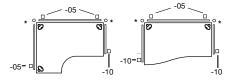

* Requires User Modification
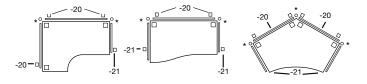

EX10 Executive   * Requires link post
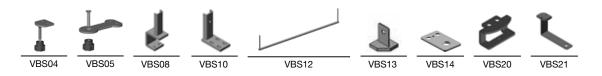

Deskit   * Requires link post

Desktop Screen Brackets

-04   Mesa, Bench Scallop & DesQ configurations (supplied in pairs).
-05   EX10 Executive configurations - Fits to port holes (supplied in pairs).
-08   Bench² Fixed, Scallop Top & DesQ configurations - 1000 side - 800 sides (supplied singularly) - Jaw size 17mm - 32mm.
-10   Can be used on any range (supplied singularly)
-12   Bench² Access Top screen support rail - singular.
-13   Mesa & Mesa Plus - 800 side & 600 return sides - (supplied singularly).
-14   Bench² Fixed Top brackets - supplied in pairs.
-20   Deskit configurations (supplied in pairs) - Jaw size 15mm - 30mm.
-21   Deskit configurations - 1000, 800 & 600 Return screen for use on 25mm thick tops. Can only be used with rear screen and 4way post

NEW PRODUCT
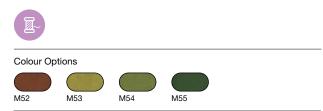

Inspired by the surrounding nature, our class A sound absorbing tree shaped panelled screens are perfect for any environment. When put together, the panels take on the shape of a forest: made even more realistic and evocative by the fact that the panels can be chosen in the typical colours of the leaves in spring, summer and autumn. Putting several panels together allows them to be used as a partition wall, to divide up - even on a temporary basis - work areas or dining areas, or to create genuinely private spaces in order to create small lounges or meeting rooms. Featuring an elegant design, a highly practical dividing function.

Mesa Plus Rectangular Double Sided Desking with Mesa Plus Fabric Desk Mounted Screen

5 Year Guarantee

Mirage Lite is a 28mm thick, non-pinnable frameless desk top screen system that is designed to fit to Gresham 25mm thick worksurfaces. The range is available in five distinct profile shapes and all screens are supplied with brackets that allow then to be simply fitted into place.

These slim-line screens can be upholstered in a choice of vibrant fabrics that not only help to delineate user space but also can add colour highlights in modern workspace environments. Tackable versions are available for a surcharge.

Additional Information:
- Frameless design.
- 28mm thick frameless upholstered screens.
- Brackets available in Black, Grey, Silver or White.
- Available in five unique designs.
- Fit to front/rear edge of desks/workstations.
- Note 'Arrow' screens do not fit on Bench Deskit (BK).
- For Tackable version, please prefix T onto **front** of code *i.e TML1804-2/1.* Surcharge per screen.

Suffix screen code with /4
Example of code = TML1604-2/4
(Mirage Lite 1570 x 380 Curved Tackable Screen with Type 4 brackets)

MIRAGE LITE
SCREENS & PODS

RETURN DESKTOP SCREENS

The Mirage Lite Return Screen is designed as an interference fit, so it can be installed and removed several times on a desk top as standard. A metal bracket fixed into the jaw is shaped to contact the desktop at a single point. The bracket creates an undersized gap, but flexes to ensure tight fitting. The second contact point is from the wooden jaw of the screen, this is not structural, just offering some stability. The bracket after time may be pushed down past its elastic point, and could require a slight adjustment back into its original shape to reinstate a tight fit, a gentle pull upwards should achieve this. The screens are designed only as a partition, not a location for accessories to be fitted. They are designed only to support the mass and forces of the screen itself, not anything additional such as people leaning, pushing or twisting once in situ.
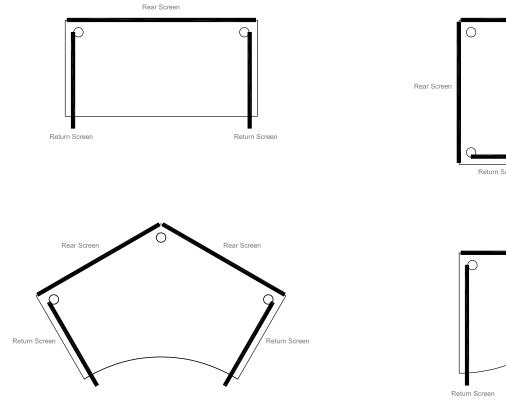

Code	Description
	Xtreme
Return Screens	
ML1004-R	Return Desk Top Screen 1000w x 380h x 28
ML0804-R	Return Desk Top Screen 800w x 380h x 28
ML0604-R	Return Desk Top Screen 600w x 380h x 28
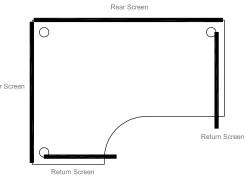

Please Note:
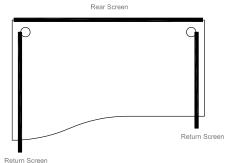

Return Screens may need to be positioned to avoid End Frames and Pedestals.

Tackable versions are not available on return screens.

SCREEN POSITIONING

When ordering screens, ensure you know where they will be positioned so that the correct screen can be specified. Standard Rear Screens are supplied with brackets, whilst Return Screens are fitted with spring clips.

Desk High Lockable Double Door Storage, Cupboard with Hinged Doors and Vertical Tambour Unit

TOP & BASE UNITS
STORAGE

By adding top units to base units, simple combination storage can be created. Top shelving units can also be fitted to System Storage, so increasing the possibilities.

- Top units available with open fronts or sliding glass doors.
- Base units match the height of desking and can be used as desk end storage.

BOOKCASES & PIGEON HOLE UNITS
STORAGE

Though each unit has adjustable shelves, each tier is normally based on foolscap box file dimensions. Pigeon Hole units are designed to sit on `Base' storage units.

- Pigeon Hole units match System Storage heights when fitted to base units.
- 'SU' units are desk height and can be used to extend worksurfaces.

INTRODUCTION
BESPOKE

g
GRESHAM
BESPOKE

FROM CONCEPT TO COMPLETION

Gresham Bespoke design everything from scratch, starting with the earliest concept sketches through to the installation of our completed products.

From detailed technical drawings we can manufacture and construct every component of a project on site, including meticulous testing and trialling to meet a briefs' specifications. This ensures that we only ever deliver the highest standard of quality bespoke products, that always stand the tests of time.

Bespoke
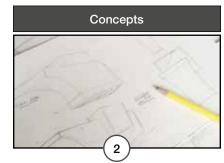

OUR PROCESS
BESPOKE

'The Devil is in the detail' and when supplying tailored solutions, it's all about getting every aspect right to meet your needs, in the timescales that suit you and at the right price.

Bespoke

Client Requirement

1

Though we offer a huge selection of products within our standard portfolio, there's always a time when something different is required. This is where we listen to you and find out what you or your team need. This is where the wish list can be fine-tuned.

Concepts

2

Whether starting from 'set-in-stone' specifications or a clean piece of paper, we discuss your requirements with you, offer advice and can quickly determine whether the solutions need to go down our 'Specials' or 'Bespoke' route; offering alternatives where possible. These can be simply illustrated to help communicate the ideas and formulate the plan of action.

Design and CGI

3

Once agreed, we develop the ideas into detailed designs that will meet all exacting standards. We understand, however, that some things are difficult to imagine, so as part of our service we can produce computer generated images of the suggested products shown in detail or placed within your workspace. Colours, textures, shapes and scale can all be shown, bringing the whole concept to life.

Site Template

4

We appreciate that real life can differ from concept, so when needed, members of our specialist team will visit site to confirm measurements or produce templates for manufacturing parts to ensure an exact fit during the installation phase. It's all about getting it right!

Manufacture

5
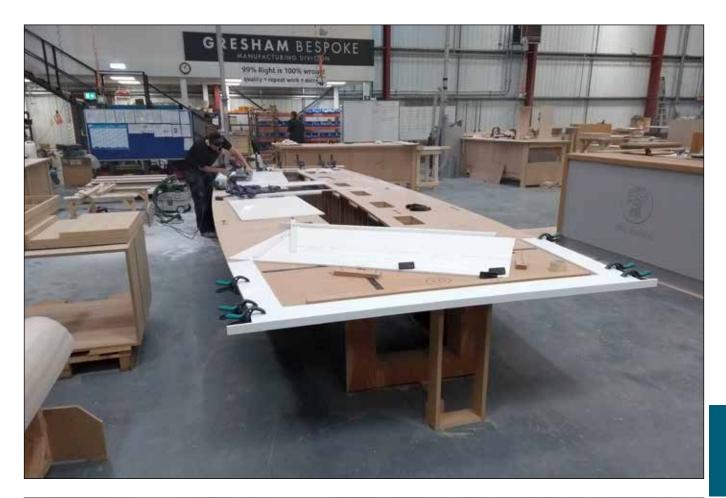

Being able to draw upon our design experience, state-of-the-art manufacturing facility and combining this with our hand-crafted joinery expertise enables us to work with an enormous array of materials and processes. This allows us to turn those concepts into reality.

Imstallation

6

Whether it's a simple drop-off on site or a complete fitted solution, it's all part of our complete service in supporting you. It doesn't stop there either. If needed, once the furniture is installed we can offer user guides and explanations to ensure each user benefits from the experience.

FINISHES & ADDITIONS
BESPOKE

We work closely with Architects, Designers & End users to help choose and specify finishes
taking into consideration: Design, Manufacturing process, Durability & Budget.

Gresham Standard MFC

Standard range of finished available in 18mm, 25mm & 36mm thick board. ABS edging is available either 1mm or 2mm thick in a matching finish or Multiplex. Refer to the Gresham Product Guide for available MFC finishes. Samples can be requested by contacting your account manager or our sales department.

Gresham Standard High Pressure Laminate

Matching laminate finishes that complement our standard MFC range. The core material is MDF, available with ABS edging at 1mm or 2mm thick with a matching finish or Multiplex. Refer to the Gresham Product Guide for available laminate finishes. Samples can be requested by contacting your account manager or our sales department.

Non Standard High Pressure Laminate

We offer hundreds of finishes from a range of manufacturers including plain colours, wood grain effect, textured finish, matt, high gloss, patterned and metallic finishes. Due to the wide range available, we do not hold samples in stock but they can be requested direct from the manufacturer. Alternatively email bespoke@gof. co.uk to request samples on your behalf.

Real Wood Veneer

We can select veneers with unique grain patterns to suit individual products highlighting the natural beauty of a wood finish. European Oak, Maple, Ash & American Black Walnut are all available. Samples can be requested by contacting your account manager or our sales department.

Solid Surface

Solid surface is an extremely versatile material that can be shaped and formed with seamless joints using thermoforming. The option for engraving is also available when choosing a solid surface finish. As an approved Corian fabricator we can offer a 10 year guarantee on our products.

Signage

Units can simply be customized to suit your building and work requirements to feed all the services through the furniture, directly to any reception equipment.

Glass

We can finish our units with toughened glass. Available as back painted or with coloured film backing, straight or curved.
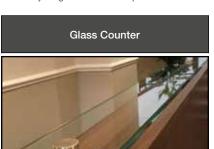

Glass Counter

Available as straight or curved units, adding a clear protective layer.

Glass Front
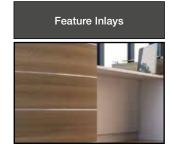

Connected to Rectangular Base, Block or Hutch adding a touch of finesse.

Lighting

This subtle addition can highlight kick-plates, counters or recesses. This is supplied in a selection of styles to suit the application.

Cable Management Tunking and Outlets

This addition can personalise the units, whether fitted to base units or hutches, glass or acrylic panel.

Feature Inlays

Adding more finesse to standard units, these strips are used to decoratively 'break-up' vertical surfaces and can be colour co-ordinated to suit with kick-plates.

Gate and Flap

Used to enclose users whilst providing access when units are adjacent to walls.

LEATHER GROUP 1

Crest / JMT Shelly

Leather Group 1 is for selected Shelly hides. Other colours from this range are available but could be subject to a surcharge dependant on leather maximisation, POA. Please note that all leathers are subject to natural markings and variations in shade. These natural bruise marks distinguish it from man made imitations. The variations are features, not faults.

Black

Cream

OTHER INFORMATION

Fire Retardancy
All information regarding fire retardancy has been provided by the fabric manufacturer.

Flame Retardancy Ratings:
C&M   Cigarette and Match = Low Hazard
C&M*   Cigarette & Match as standard. Can be treated to achieve Crib 5 upon request.
CRIB 5   Medium Hazard
CRIB 5*   Medium Hazard when used over CMHR 50kg Foam.

Abrasion
All information regarding abrasion has been provided by the fabric manufacturer and communicates wear resistance as determined by the Martindale abrasion test.

Vinyl
Fabrics marked with ⓥ are Vinyl.
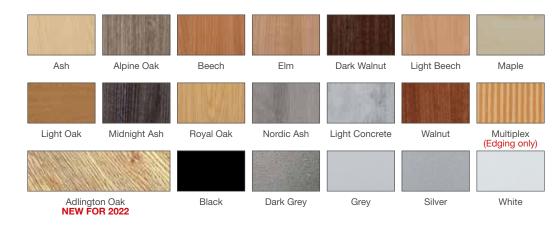

Product leadtimes may be affected by the fabric selected. Please contact our Sales Department for further information.

Please Note:
Fabrics other than those listed above are available. These fabrics may require testing to ensure their suitability for use on the intended product. Not all fabrics shown are suitable for use across all ranges within this document. Due to their specification, certain fabrics may have a detrimental effect on the final appearance of a product.

WOOD, METAL & LAMINATE FINISHES
TECHNICAL INFORMATION

THE FENIX COLLECTION

Fenix, the nanotechnological material from Arpa Industriale, has revolutionised the world of interior design. It is not only beautiful to look at but, most importantly, it is also a high-tech material, made unique by its characteristics.

Fenix has these characteristics by undergoing a particular series of processes, including a multilayer coating and the use of next-generation nanoparticles and acrylic resins, which are hardened and cured through an innovative Electron Beam Curing process. This process makes the material anti-fingerprint, soft to the touch, opaque and extremely durable, so much so that it can withstand serious knocks and scratches, but also makes it highly resistant to the aggressive action of solvents and reagents typically used for household cleaning.

Fenix is also heat-resistant. Additionally, should the surface have superficial microscratches, heat actually helps to repair them. The surface of the material is scattered with a dense grid of crosspolymers with their own memory, which can be reactivated by the application of heat.

Fenix is also water-repellent, hygienic, thanks to its effective bacteria-killing action, and resistant to mould.
All of these make it a perfect surface for contact with food and very easy to clean.

We have a large selection of matching Edging to choose from that perfectly complements our Fenix Collection.
